

October 13,2009

**Corporate endorsements for news release (dated: Oct 13, 2009)**

Following endorsements for news release dated October 13, 2009 "I-NET started providing Virtualization All in One Services (VAiOS)" were received from VMware K.K., iii@OEC, KAGOYA-JAPAN, Inc., BSN Information NETwork Service, MIC (Minaminihon Information Processing Center) Co., Ltd., FalconStor Software, Inc., and Riverbed Technology K.K.

[Endorsement from VMware K.K.] (Alphabetical order – JP phonetic)

VMware K.K.welcomes the inauguration of the “Virtualization Operation Center (VOC™)” created by I-NET CORP. and VMnet Corp. Constructed with VMware products as the foundation, the “Virtualization All in One Services (VAiOS)”, supported by proven technical expertise possessed by both companies in relation to VMware products, is expected to provide existing customers with further enhanced virtualization environments, and speed up the installation of VMware virtualization solutions for new customers.

VMware K.K.  
President: Yasuo Miki

[Endorsements from partners participating in VMware virtualization validation tests] (Alphabetical order – JP phonetic)

We extend our warmest welcome to the commencement of the “Virtualization All in One Services (VAiOS)” offered by I-NET CORP. and VMnet Corp.

Beginning with the “WaWaOffice” series of services (groupware, workflow, SFA, general reporting functions) that were awarded the “ASP/SaaS/ICT Outsourcing Award 2009”, which are based on VMware, iii@OEC is also striving to enhance business services that will be of practical benefit to our customers, and will continue in this vein through disaster recovery, BCP and various virtualization services that utilize the advantages of regional iDCs, in preparation for the full-scale expansion of demand for PaaS, SaaS, HaaS and cloud services.

We firmly believe that we can offer further enhanced optimum services in response to the demands of our customers, through our cooperation and collaboration with “Virtualization All in One Services (VAiOS)” as an alliance partner of I-NET CORP. and VMnet Corp.

iii@OEC  
Executive Officer and General Manager of ASP Sales Group: Kenji Takasugi

[Endorsements from partners participating in VMware virtualization validation tests]  
(Continued)

The “Virtualization All in One Services (VAiOS)”, newly launched by I-NET CORP. and VMnet Corp. have taken up the formidable challenge of reducing TCO and IT assets by 40-50%.

This endeavor, by a company that undertakes the housing and management of IT resources, to deliver low price high quality total virtualization services, merits attention as one solution put forward by the data center industry to tackle the pressing issues of cost reduction, which include IT costs, that have emerged since the financial crisis.

In response to demands for cost reduction from data center customers, I-NET CORP., who possess highly functional and highly reliable data centers, and VMnet Ltd., who possess extensive technical capabilities, now offer pricing and services that will satisfy their customers, and we hope that this will become the benchmark for the entire industry.

KAGOYA-JAPAN, Inc.

President and Chief Technology Officer: Sadahiro Kitagawa

BSN Information NETWORK Service extend our warmest welcome to the inauguration of the “Virtualization Operation Center (VOC™)” by I-NET CORP. and VMnet Corp. Although these two companies have in the past collaborated on activities centering on VMware’s council for cloud service providers, future collaboration between “Virtualization All in One Services (VAiOS)” and our “iNET IMAGE BANK” platform will enable them to provide optimum services to their customers, while further developing and strengthening the collaborative business partnership between the two companies.

BSN Information NETWORK Service

President: Yoshiro Kawasaki

MIC Co., Ltd. extend our warmest welcome to the inauguration of the “Virtualization Operation Center (VOC™)” established by I-NET CORP. and VMnet Corp., and the commencement of “Virtualization All in One Services (VAiOS).

As a member of the “Council for Cloud Service providers”, we anticipate that VOC™ and VAiOS will benefit not only large corporations, but will also bring virtualization technology closer to regional small and medium sized businesses, and provide an environment that will allow them to receive the full benefit of the merits of virtualization.

MIC (Minamihon Information Processing Center) Co., Ltd.

President: Hiroshi Churei

[Endorsement from technology support vendor companies] (Alphabetical order – JP phonetic)

The Virtualization Operation Center from I-NET CORP. and VMnet Corp. shows a great deal of potential as a business model, with its virtualization all in one service. FalconStor is pleased to be an integral part of the first cloud-based backup and DR services in Japan. The selection of FalconStor CDP for disaster recovery in the VOC™ provides customers with an easy, affordable virtualization path to secure their applications. FalconStor consistently strives to provide superior recovery environments to its customers.

FalconStor Software, Inc.  
Chairman and CEO: ReiJane Huai

We extend our warmest welcome to the inauguration of the Virtualization Operation Center (VOC™) and the commencement of “Virtualization All in One Services (VAiOS)” by I-NET CORP. and VMnet Corp.

With VOC™ services, we firmly believe that the accumulated virtualization operation know-how will allow the provision of optimum virtualization operation services.

The combination of Riverbed Technology’s WAN acceleration and optimization solutions with the exceptional technical capabilities of I-NET CORP. and VMnet Corp. provides powerful backup for virtualization services that realize maximum efficiency, and we hope that this will support the dissemination of cloud computing.

Riverbed Technology K.K.  
President: Yoshimitsu Okamoto
